**Project Indicators (This Quarter)**

**1. Please describe significant project accomplishments completed during this quarter (600 words or less).**

This quarter the project manager worked on maintenance-related activities. Though more than 98% of the equipment has already been purchased, and only a few libraries are still ordering equipment, the project manager continued to coordinate with the accounting department to process invoice paperwork and pay vendors from the grant fund.

Project manager and accounting department worked on balancing accounts and reconciling budget numbers in internal accounting database and determined balances for each for the participating libraries. After communicating with libraries maintaining award balances, Project manager worked with accounting department to re-allocate remaining balances to one of the participating libraries requesting extra award funds and able to spend the funds and pay the 20% match quickly.

The National Telecommunications and Information Administration liaison, the AZ State Library's Grant's Administrator and the project manager participated in monthly status teleconferences. Among the issues addressed was the grant close-out process and check-list.

The project manager reviewed quarterly survey results and calculated statistics for the first quarterly report of 2012. Project manager prepared the end of quarter survey for the second quarter of 2012 and sent to participating libraries.

**2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline report, please insert them at the bottom of the table. Figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).**

	Milestone	Percent Complete	Narrative (describe your reasons for any variance from the baseline plan or any other relevant information)
2.a.	Overall Project	99	We are slightly ahead of the baseline projection of 98% overall completion for this time.
2.b.	Equipment / Supply Purchases	-	Progress reported in Question 4 below

2.h.	Training Programs	-	Progress reported in Question 4 below
2.i.	Other (please specify):	-	Progress reported in Question 4 below

**3. Please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).**

Challenges have included working with accounting department to re-allocate remaining balances from libraries who have not been able to spend all of their award funds. However, funds have been re-allocated successfully.

Though the average number of users per week has risen significantly since grant project was introduced, the initial projection numbers were overly ambitious and have been affected by significant reduction in operating hours at libraries due to the economic recession and library funding issues. Therefore we are not meeting the initially projected target numbers, which were inaccurately conceived.

We are seeing our goals of reduced wait times for public-access computers met across all libraries.

**4. Please provide actual total numbers to date or typical averages for the following key indicators, as specified in the question. Write "0" in the Total column and "N/A" in the Narrative column if your project does not include this activity. Unless otherwise indicated below, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative explanation if the total is different from the target provided in your baseline plan (300 words or less).**

	Indicator	Total	Narrative (describe your reasons for any variance from the baseline plan or any other relevant information)

	Indicator	Total	Narrative (describe your reasons for any variance from the baseline plan or any other relevant information)
4.a.	New workstations installed and available to the public	1,000	We are slightly below our projected number of 1,033 new workstations but more workstations will be purchased and installed by the next quarter.
4.b.	Average users per week (NOT cumulative)	40,000	This estimated number is below the projected number on the baseline projection report but the difference is explained in the "Challenges" narrative section above.
4.c.	Number of PCCs with upgraded broadband connectivity	0	N/A
4.d.	Number of PCCs with new broadband wireless connectivity	0	N/A
4.e.	Number of additional hours per week existing and new PCCs are open to the public as a result of BTOP funds	0	N/A

**5. Training Programs.** In the chart below, please describe the training programs provided at each of your BTOP-funded PCCs.

**Project Indicators (Next Quarter)**

**1. Please describe significant project accomplishments planned for completion during the next quarter (600 words or less).**  
 In the next quarter we hope to be either entirely or almost completely finished with equipment/supply purchases.

**2. Please provide the percent complete anticipated for the following key milestones in your project as of the end of the next quarter. Write "0" in the second column if your project does not include this activity. Figures should be reported cumulatively from award inception to the end of the next reporting quarter. Please provide a narrative description if the planned percent complete is different from the target provided in your baseline plan (300 words or less).**

**3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).**

During the next quarter we will be focusing on accounting issues as libraries complete their ordering and finish spending.  
  
 We hope that libraries ramp up their publicizing of the new computers during the next quarter so that we will see an increase in user numbers. Unfortunately our weekly average user numbers are below the initial projections, but because of reduced library hours, much of this discrepancy is outside of our control.
