AWARD NUMBER: NT10BIX5570104 DATE: 05/20/2013

Project Indicators (This Quarter)

1. Please describe significant project accomplishments completed during this quarter (600 words or less).

During this quarter construction maps and detailed drawings were created and used to submit permits to various entities including the Mississippi Department of Transportation and various City and County governments. Railroad and aerial permits were also submitted and approved. Thirty new miles of fiber were constructed bringing the total miles constructed to 225. Six new anchor institutions were connected this quarter. Total anchors connected is Sixty one.

2. Please provide the percent complete for the following key milestones in your project. Write "0" in the Percent Complete column and "N/ A" in the Narrative column if your project does not include this activity. If you provided additional milestones in your baseline plan, please insert them at the bottom of the table. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the percent complete is different from the target provided in your baseline plan (300 words or less).

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or subsequent written updates provided to your program officer)
2a.	Overall Project	74	During this project it has become evident to Contact Network Inc. that the design, build and procurement should be conducted in such a way as to accommodate the end users for which we have signed contracts in place for services. Our primary focus for design, engineering, permitting etc. has been and will continue to be on the Community Anchor Institutions for which we have contracts. Also, we are experiencing delays in the delivery of the fiber optic cable and vaults. While we received a few shipments of fiber during this quarter it was much less than promised. As a result the actual percent complete in this category varies from our initial baseline report.
2b.	Environmental Assessment	100	No variance from baseline
2c.	Network Design	90	Since the baseline was submitted it became evident that the network design will be fluid as we move forward. While the network design is 90% complete, as ride outs and meetings are held with various utilities and local government agencies and as permits are negotiated the network design may need to be updated and/or changed. As a result the actual percent complete in this category varies from our initial baseline report which assumed that we would be working on all sections of the build simultaneously during the first year thus causing the variance between actual and our baseline projections.
2d.	Rights of Way	60	Since the baseline was submitted it became evident to Contact Network Inc. that the design, build and procurement should be conducted in such a way as to accommodate the districts for which we have signed contracts in place for services. Our primary focus for design, engineering, permitting etc. will be on these Community Anchor Institutions. As a result the actual percent complete in this category varies from our initial baseline report.
2e.	Construction Permits and Other Approvals	60	Since the baseline was submitted it became evident to Contact Network Inc. that the design, build and procurement should be conducted in such a way as to accommodate the districts for which we have signed contracts in place for services. Our primary focus for design, engineering, permitting etc. will be on these Community Anchor Institutions. As a result the actual percent complete in this category varies from our initial baseline report.
2f.	Site Preparation	50	There is a variance from our baseline in this milestone category simply based on the number of Community Anchor Institutions connected.
2g.	Equipment Procurement	49	Equipment is being purchased on an as needed basis.
2h.	Network Build (all components - owned, leased, IRU, etc)	74	Since the baseline was submitted it became evident to Contact Network Inc. that the design, build and procurement should be conducted in such a way as to accommodate the Community Anchor Institutions for which we have executed contracts. Our primary focus for design, engineering, permitting etc. will be on these Institutions. As a result the actual percent complete in this category varies from our initial baseline report which assumed we would be working on all sections of the build

AWARD NUMBER: NT10BIX5570104

DATE: 05/20/2013

	Milestone	Percent Complete	Narrative (describe reasons for any variance from baseline plan or subsequent written updates provided to your program officer)
2i.	Equipment Deployment	50	There is a variance from our baseline in this milestone category simply based on the number of Community Anchor Institutions connected.
2j.	Network Testing	50	There is a variance from our baseline in this milestone category simply based on the number of Community Anchor Institutions connected.
2k.	Other (please specify):	0	No variance from baseline

3. To the extent not covered above, please describe any challenges or issues faced during this past quarter in achieving planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

We are still experiencing delays due to negotiations of Franchise Agreements with various cities and counties as well as with all the railroad crossing permits, which are averaging six weeks to secure and Mississippi Department of Transportation permits we submit. Also, the cost of aerial build has dramatically increased - specifically the annual pole attachment fees and the one time make ready costs. Also, the Electric Power Associations have changed the allocation space where communications are allowed to attach from 40 inches to 84 inches with is either causing us to have to pay for pole change outs or change the build to underground. Also, we are still having issues with the K-12 schools are not freely allowing us to place the telecommunication huts for interconnection on their properties.

4. Please report the following information regarding network build progress. Write "0" in the Total column and "N/A" in the Narrative column if your project does not include this activity. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the total is different from the target provided in your baseline plan (600 words or less).

Indicator	Total	Narrative (describe your reasons for any variance from the baseline plan or any other relevant information)
New network miles deployed	225	Due to actual contracts signed and the focus being to provide these Community Anchor Institutions service this number varies from our initial baseline projections.
New network miles leased	122	Due to actual contracts signed and the focus being to provide these Community Anchor Institutions service this number varies from our initial baseline projections.
Existing network miles upgraded	0	No variance from baseline
Existing network miles leased	0	No variance from baseline
Number of miles of new fiber (aerial or underground)	225	Due to actual contracts signed and the focus being to provide these Community Anchor Institutions service this number varies from our initial baseline projections.
Number of new wireless links	0	N/A
Number of new towers	0	N/A
Number of new and/or upgraded interconnection points	11	No variance from baseline

For questions 5 and 6 please include information relating to agreements that you are negotiating or have entered into, or that your sub recipient, contractor or subcontractor is negotiating or entered into.

5a. If applicable, please provide the following information with regard to agreements with broadband wholesalers and/or last mile providers as a result of your project.

Indicators	
Number of signed agreements with broadband wholesalers or last mile providers	1
Number of agreements currently being negotiated with broadband wholesalers or last mile providers	1
Average term of signed agreements (in quarters)	60

5b. Please list the names of the wholesale and last mile providers with whom you have signed agreements (100 words or less). Providers: Windstream

AWARD NUMBER: NT10BIX5570104 DATE: 05/20/2013

5c. What wholesale services are being provided by this project? Please describe below. As an attachment to this report, please provide pricing plans (in \$ per month) associated with each wholesale service provided by your product (100 words or less). Wholesale services description:

Our wholesale service offerings will include: 10Mbps Private Network; 10Mbps Fiber Connection with Internet Access; 100Mbps Private Network; 100Mbps Fiber Connection with Internet Access; 500Mbps Private Network; 1000Mbps Private Network

5d. If you have designated a third party to operate all or a portion of your network, please provide the name and contact information for this third party, indicate if this entity is a sub recipient, contractor, and/or subcontractor, and describe with specificity the portion of your network this this third party operates (600 words or less).

Not Applicable; we do not have a third party operating any part of our network.

6. Please provide the data according to the type of subscriber. Write "0" in the Total column and "N/A" in the Narrative column if your project does not pass or serve a particular subscriber type. Unless otherwise indicated in the instructions, figures should be reported cumulatively from award inception to the end of the most recent reporting quarter. Please provide a narrative description if the total is different from the target provided in your baseline plan (300 words or less).

Subscriber Type Access Type		Total	Narrative (describe your reasons for any variance from the baseline plan or any other relevant information)			
Broadband Wholesalers or Last Mile Providers	Wholesalers or Last		We were able to secure one wholesale contracts to provide new service, thus causing a variance from our baseline.			
	Providers with signed agreements receiving improved access	0	We were able to secure one wholesale contracts to provide new service, thus causing a variance from our baseline.			
	Providers with signed agreements receiving access to dark fiber	0	No variance from baseline			
Please identify the speed tiers that are available and the number of subscribers for each		1	10Mbps Private Network-no subscribers; 10Mbps Fiber Connection with Internet Access-one subscribers; 100Mbps Private Network-no subscribers; 100Mbps Fiber Connection with Internet Access-no subscribers; 1000Mbps Private Network - 1 subscriber			
Community Anchor Institutions (including Government institutions)	Total subscribers served	61	We have contracts to connect another twenty one community anchor institutions and are in the process of this construction, which would bring us closer to our baseline projection.			
	Subscribers receiving new access	0	No variance from baseline			
	Subscribers receiving improved access	61	We have contracts to connect another twenty one community anchor institutions and are in the process of this construction, which would bring us closer to our baseline projection.			
	Please identify the speed tiers that are available and the number or subscribers for each	61	Fifty two of the Community Anchor Institutions are receiving 1000Mpbs Private WAN Connections, ten with internet access; nine are receiving a 10Mbps Private WAN Connection.			
Residential / Households	Entities passed	0	N/A

As a result the actual percent complete in this category varies from our initial baseline report which assumed we would be working on all sections of the build simultaneously thus causing the variance between actual and baseline projections.
2k.	Other (please specify):	0	No variance from baseline

3. Please describe any challenges or issues anticipated during the next quarter that may impact planned progress against the project milestones listed above. In particular, please identify any areas or issues where technical assistance from the BTOP program may be useful (600 words or less).

Mississippi Department of Transportation and Railroad crossing permits are becoming increasingly difficult to secure. As always in the south, weather could also have an impact on our planned progress.

Infrastructure Budget Execution Details

Activity Based Expenditures (Infrastructure)

1. Please provide details below on your total budget, cumulative actual expenditures (for the period ending the current quarter), and cumulative anticipated expenditures (for the period ending next quarter) for each line item, including detailed disbursements of both matching funds and federal funds from project inception through end of this quarter (actual) or next quarter (anticipated). Actual and anticipated figures should be reported cumulatively from award inception to the end of the applicable reporting quarter.
